FAQ

As with everything else these days, Harmony works with Amazon Alexa and Google Home, as well as with Philips Hue and other connected devices.. Also gone are the days of connecting the remote to a computer to sync things up.. Something like this My mac keeps closing apps download It was awful Awful setup and not much better to use.

That's how I remember it, anyway — a definite two-hander with a large screen (for the time) and very few physical buttons.. It's that good And it's that important Universal remotes — even the ones I'm looking at here — are almost always at least a little more difficult to use than the individual remotes they're replacing.

But it still was better than needing to have three remotes by my side at any given time.. As far as I'm concerned, without your

lap or desk-top capable of calling the shots, a hub is just another piece of remote control clutter. [Download Google Maps For Mac Desktop](#)

We talk about curvy phones all the time now, but my wife catches me fondling this remote all the time and gives me a good dirty look for it.. These work with (require, actually) the Harmony app on Android or on iOS You set up the remotes through the apps, they sync over Wi-Fi, then you go about your business.. Logitech Mac AppLogitech Harmony App Fire TabletLogitech My Harmony App Mac ProI once owned a universal remote that I'm pretty sure was the size of a shoebox.. But gone are the days of looking up codes and hoping the remote would support your device.. They work, they work well, and they were pretty simply to set up Let's rap Now I can really use my Harmony Hub exclusively for all my remote needs. cea114251b [Epson Nx215 Driver](#)
